## Pick List

### Water Conservation - Must meet all three

- |                          |  |
|--------------------------|--|
| <input type="checkbox"/> | Toilets - Water Saver or ultra low flush 4.8l/fl |
| <input type="checkbox"/> | Showers 7.6 l/min or less @ 551 kPa              |
| <input type="checkbox"/> | Lavatory Faucets 5.7 l/min or less @ 413 kPa     |

### Indoor Air Quality Features - Indicate at least 3 choices

- |                          |  |
|--------------------------|--|
| <input type="checkbox"/> | 1-Carpeting with CCI Green Label, or   |
| <input type="checkbox"/> | 1-Carpeting, non-labelled (= or < 50% total area), or  |
| <input type="checkbox"/> | 1-Carpeting, wool or cotton area rugs, or carpet with non latex backing and not glued and no under pad |
| <input type="checkbox"/> | 2-Medium-efficiency air filtration of central forced air , MERV 13 or 10 percent ASHRAE or             |
| <input type="checkbox"/> | 2-Electronic air cleaner, permanently installed or   |
| <input type="checkbox"/> | 2-Air filtration of gaseous contaminants in the forced air system                                      |
| <input type="checkbox"/> | 3-Low VOC Paints and Varnishes   |
| <input type="checkbox"/> | 4-Low VOC Flooring Adhesives   |
| <input type="checkbox"/> | 5-Cabinets made from solid wood or sealed surfaces   |
| <input type="checkbox"/> | 6-Linoleum or synthetic tile. No sheet vinyl.  |
| <input type="checkbox"/> | 7-Approved particleboard flooring underlayment   |
| <input type="checkbox"/> | 8-Active sub-slab radon control system   |
| <input type="checkbox"/> | 9-Moisture-isolated crawlspace, or   |
| <input type="checkbox"/> | 9-Insulation under all slab area (R-5 or better), or   |
| <input type="checkbox"/> | 9-Basement drainage layer or waterproofed.   |

### Environmental Features - Indicate at least 2 choices

- |                          |  |
|--------------------------|--|
| <input type="checkbox"/> | 1-Glass fibre insulation - EcoLogo recycled          |
| <input type="checkbox"/> | 2-Cellulose insulation - EcoLogo recycled            |
| <input type="checkbox"/> | 3-Mineral fibre insulation - EcoLogo recycled        |
| <input type="checkbox"/> | 4-Plastic insulation - EcoLogo recycled              |
| <input type="checkbox"/> | 5-Fibreboard made from recycled fibres               |
| <input type="checkbox"/> | 6-Siding made from wood fibre waste                  |
| <input type="checkbox"/> | 7-Drywall made from recycled material                |
| <input type="checkbox"/> | 8-Steel studs (minimum 23% recycled steel)           |
| <input type="checkbox"/> | 9-Wood studs / trim made from cut-offs, waste, no UF |
| <input type="checkbox"/> | 10-Foundation/slab drainage w/ recycled glass        |
| <input type="checkbox"/> | 11-Energy Star appliances or upper third EnerGuide   |
| <input type="checkbox"/> | 12-Energy consumption min. 15% below target          |
| <input type="checkbox"/> | 13-Cooling system Energy Star qualified              |
| <input type="checkbox"/> | 14-Energy-Efficient Motor in forced air system       |
